ECONOMIC INTELLIGENCE COMMITTEE

MEMORANDUM FOR: Members of the Economic Intelligence Committee

SUBJECT: Establishment of New Subcommittee

REFERENCE: EIC-D-618, dated 21 March 1966, same subject

1. The attached draft memorandum for the Chairman of the EIC Subcommittee on General Economic Analysis requesting an extension of subcommittee activities is the proposed method of incorporating the recommendation of the member from the Department of State with respect to current developments in economic policy in Communist countries. It has been discussed with him, and he generally concurs in this method of incorporating the responsibility into the Subcommittee on General Economic Analysis.

2. This proposal will be discussed at the next EIC meeting and, hopefully, approved.

3. The question of extending the membership of the Subcommittee on General Economic Analysis to include Mr. Ernest Rubin, Department of Commerce, and Mr. Paul Gekker, Federal Reserve Board, will also be discussed. If there are other Associate Members of the EIC to whom it would be appropriate to issue invitations, I suggest that members bring these recommendations to the meeting.
